PROFESSIONAL SUMMARY

Aspiring **Python Full Stack Developer** with hands-on project experience in **Python, React, JavaScript, Flask, REST APIs, SQL, and Machine Learning**. Interested in **web development, automation, API integration, and AI-powered applications**, with a strong focus on building practical and efficient software solutions.

EDUCATION

B.Tech in Computer Engineering (AI ML) 2022 – 2026
U.V Patel college of Engineering, Ganpat University, Gujarat

Class XII 2020 – 2022
Andhra Pradesh Board of Intermediate Education

PROJECTS

Spam Email Detection using BERT

- Developed a BERT-based NLP spam classification system using Python, Transformers, and PyTorch/TensorFlow, achieving approximately 95%+ classification accuracy.
- Performed text preprocessing, BERT fine-tuning, binary classification, and model evaluation using Precision, Recall, and F1-score.

Smart QR Code Generator and Management System

- Enhanced a QR generation system supporting multiple QR formats, including URLs, text, contact information, and Wi-Fi credentials.
- Implemented QR customization, downloadable QR generation, input validation, responsive UI, and API integration, providing 5+ QR generation options.

Money Lender Interest Management System

- Developed a loan management application that automated interest calculation, payment tracking, balance updates, and loan record management, reducing manual calculation effort by approximately 80%+.
- Implemented automated financial calculations, input validation, CRUD operations, and database management.

Automated Web Data Monitoring System

- Built a full-stack web automation platform using Python, FastAPI, React, Playwright, and PostgreSQL for automated data extraction and monitoring.
- Implemented scheduled scraping, data validation, change detection, database storage, REST APIs, and automated email notifications.

Personal Portfolio Website

- Developed a responsive personal portfolio website using React, JavaScript, and Tailwind CSS, showcasing projects, skills, education, and achievements.
- Implemented 10+ reusable React components, responsive layouts, navigation, interactive UI elements, and integrated GitHub/LinkedIn hyperlinks.

SKILLS

Languages : Python, JavaScript (React.js), HTML/CSS, Tailwind CSS, SQL (PostgreSQL, MySQL)

Tools : Git, GitHub, Postman, Docker, VS Code
